

In regard to the new broadcast service, LPFM, I am aware this may compromise my listening choices my family and I currently make: Specifically, K-LOVE 88.7 and 89.7 FM. This broadcast serves the community by providing the style and genre of music we prefer with NO OUTSIDE ADVERTISING. I can leave the radio and my small kids in the same room together knowing the children won't be polluted with inappropriate messages. I am a financial contributor to K-LOVE in order to keep this type of programming ON the air. If this broadcast is replaced by an LPFM, our community's family values will be compromised. K-LOVE has served hundreds of thousands of people across the globe and this community by encouraging positive, productive values. Please do not take this life-line away from us!
